August 11, 2017

Clark County Board of Commissioners  
500 S Grand Central Pkwy  
6<sup>th</sup> Floor  
Las Vegas, Nevada 89155

Dear Commissioner:

In accordance with provisions of the Nevada Water Pollution Control Law Chapter 445A of the Nevada Revised Statutes, the Department of Conservation and Natural Resources, Division of Environmental Protection (NDEP) has reviewed the Nevada Environmental Response Trust's NPDES permit application for their Pump & Treat Remediation Project located at East Athens Road, Henderson, Nevada, for a period of five (5) years.

The EPA reviewed the permit draft and the recommendations from EPA were duly addressed prior to the conclusion of the preliminary decisions on proposed action. The Las Vegas Review Journal published a public notice of NDEP's proposed action on June 19, 2017. Copies of the fact sheet and the public notice were sent to your office. The public notice and Fact Sheet were also sent to other interested persons, and governmental agencies on NDEP's mailing list. Draft documents were posted on NDEP's website.

During the 30-day public comment period bureau received comments from the applicant. No other comments were received from general public. After consideration, NDEP is issuing the enclosed NPDES permit (#NV0024228) to the Nevada Environmental Response Trust for a period of five (5) years. This permit action does not constitute a significant change from the earlier tentative determinations.

The new permit will become effective on August 14, 2017 and will expire at midnight on August 13, 2022, provided all permit conditions are followed, and annual fees paid accordingly.

Please contact me at (775) 687-9432 or at [smaligireddy@ndep.nv.gov](mailto:smaligireddy@ndep.nv.gov) should you have any questions regarding this permit or the permitting process.

Sincerely,

Sharada Maligireddy  
Staff 2, Associate Engineer  
Bureau of Water Pollution Control
